2. PROJECT OVERVIEW

EduGenie: Google Gemini Powered Learning Assistant

EduGenie is an educational technology project focused on using Google Gemini powered generative AI to support students with learning, explanations, study materials, and interactive question answering.

Project Objectives

• Provide students with an interactive AI-powered learning assistant.

• Help explain academic concepts in a clear and understandable manner.

• Support students in asking questions and receiving guided responses.

• Generate useful learning resources such as summaries and practice questions.

• Encourage personalized and interactive learning experiences.

• Explore responsible applications of generative AI in education.

Expected Project Outcome

The team is expected to develop or demonstrate a functional EduGenie learning-assistant solution and document its design, implementation, testing, and educational usefulness.

Project Area	Description
Artificial Intelligence	Google Gemini powered generative AI
Education	Student-focused learning assistance
Interaction	Natural-language question and answer
Learning Support	Explanations, summaries, examples and practice
Team Project	Collaborative development by four enrolled members

3. TEAM STRUCTURE & RESPONSIBILITIES
